Csaba Balogh

Volume 3  
*Fun edition*

The illustration features a large, stylized drawing of a man's head with brown hair and wide, expressive eyes. He is positioned behind a green book, which is titled "Tactics, Tactics! Volume 3 Fun edition" by Csaba Balogh. The book also features the same crown logo as the cover. In front of the book, a pair of hands holds another copy of the same book. The background is a solid light green color.

**Csaba Balogh** was born on 19th of March 1987. His best rating is 2672, Grandmaster since 2004. Member of the Hungarian National Team since 2005. Best tournament result: Olympic silver medalist in 2014, Tromsø.

The book consists of 551 practical puzzles from January of 2013 to July of 2015. The book is selected into 6 groups: "Winning material", "Mate", "Draw", "Silent", "Simplification". At the end of the book you can check your tactical skills in a test format, where you can mix the puzzles from the previous chapters.

I enjoyed many puzzles as well, I can only recommend to the readers selected by Club players to professionals!

## EDITORIAL PREFACE

As a professional chess player, I know exactly how important it is to perform well in tactical calculations. We face them so often that after playing a great game, we can simply blunder something and throw away a safe point, causing ourselves sleepless nights!

For most of the players and chess fans, the biggest pleasure in a chessgame is to beat an opponent with a beautiful combination, of which we can be proud at.

However to live with all the given opportunities and not miss any of the chances, we must stay in sharp shape all the time, what we can reach only by practicing puzzlesolving.

Many puzzle books are based on artificial positions or selected only for their beauty. The concept of my book is different. The highest priority is to “**use the practical side of the puzzles” and take the level of calculation to a completely new dimension.**

All the puzzles have been selected from recent games, trying to put the reader in the shoes of “the player”.

The difficulty of the different sections might also give you a right evaluation of your current tactical skills and bring them further ahead.

I tried to mix three things in my book:

1. a lot of fun in solving the puzzles,
2. a lot of different tactical ideas,
3. and of course, the direct practical use for your future games.

A very important factor to keep in mind — all the **practical motifs from the book can definitely be used in your future games!**

Enjoy!

# INTRODUCTION

## Useful information for the dear readers

This book is the continuation of the successful series of the “Greatest 365 Puzzles” and “Greatest 501 Puzzles” from 2012.

The book contains 551 puzzles divided into 6 chapters. You will find a huge range of tactical ideas, what you can use in your own games! All the puzzles have been collected from practical games from the beginning of 2013 to the middle of 2015. In each sections the puzzles are sorted according to the date of the game.

The book consists of six chapters:

- 1. Winning material!** (92 Puzzles)
- 2. Mate!** (105 Puzzles)
- 3. Find the draw!** (25 Puzzles)
- 4. Silent moves** (27 Puzzles)
- 5. Simplifications** (142 Puzzles)
- 6. Tests** (160 Puzzles)

All in all 551 puzzles.

I advice you to finish the first five chapters before going to the Test section. You will get familiar with a dozens of tactical motifs and then you can test your tactical skills in the Test section, where the puzzles are mixed from the previous chapters and you don't get the hint what kind of puzzle You try to solve.

## — WINNING MATERIAL —

This is probably the most common theme in tactics, where one side wins material with the help of a combination. Later in the game this should be enough to convert the advantage into full point. Try your best!

Enjoy!

## — MATE! —

This is obviously the nicest part of the game, delivering the mate to our opponents. This could be especially nice if we do it after a nice combination!

Enjoy!

## — FIND THE DRAW! —

Sometimes in chess we get into difficult situations, however by staying sharp, we might get the golden chance to save the game. In this chapter you need to search for the drawing continuation.

Enjoy!

## — SIMPLIFICATIONS —

A common case in chess, very similar to the “winning material” chapter. Try to find a tactical motif with which you obtain material advantage and in the same time the position gets simplified by exchanges of some pieces, which will make the final stage to conclude the game more easy.

Enjoy!

## — TESTS —

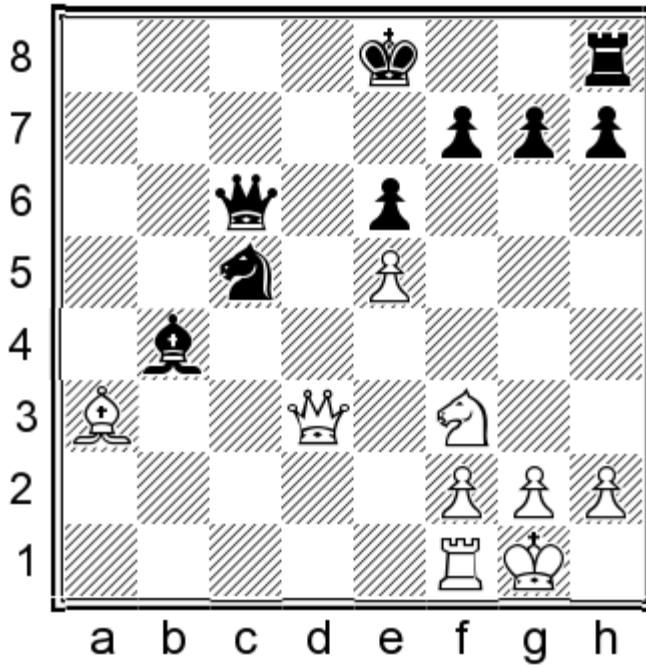

This chapter consists of 16 tests, each with ten examples. The puzzles are randomly selected from the previous chapters. Timing is also important factor in chess, so I suggest to give yourself 1,5–2 hours to each test. Try to solve all of them before looking up the solutions at the end of each test.

Enjoy and good luck!
